

## THE EBENHOLZ

### EBENHOLZ NCT V

A speed elastic blade like Ebenholz NCT V is suitable for all playing strategies of modern table tennis. The high quality and unique combination of the best wood plies in Ebenholz NCT V guarantees ambitious players maximum control even with many variations of speed and strokes. Ebenholz NCT V is a well-balanced state of the art blade that enables players of all abilities to play to their full potential.

### EBENHOLZ NCT VII

Once again STIGA's technicians have shown their expert skills and workmanship in creating this 7-ply masterpiece, the Ebenholz NCT VII. Special hand selected high quality wood plies of different hardness are combined, along with a secret ingredient--all to ensure precision, power, control, and most of all, enjoyment when you head out to the table. Because of its extreme speed and stiffness, this Ebenholz NCT VII is the answer for players who want to achieve optimum acceleration without speed glue.

### SPEED GLUE HAS BEEN BANNED, BUT THE POWER SHOT HASN'T!

At STIGA, we are staying on the cutting edge of blade technology to ensure precision, power, and most of all, enjoyment when you head out to the table. Since the speed glue ban, STIGA technicians have worked day and night to find blade solutions and optimal designs to accommodate the rule change. We now proudly present Ebenholz NCT V and Ebenholz NCT VII blades, specially developed to give you a longer trajectory on all your power shots without sacrificing control.
